**Relieve Your  
Rheumatism  
For 25c.**

NR does it by improving  
digestion, assimilation  
and elimination---  
the logical way.

**NR Today—Relief or No Pay**

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of the waste.

Let anything interfere with these processes—let them be interrupted or improperly carried on, and sickness of some kind follows.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism,—due to some interference with the process of elimination, failure to get rid of certain body poisons,—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as

rheumatic poison is allowed to remain in the body.

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days,—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

And Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

### HARDING WILL VISIT ATLANTA

Plans for President Harding's visit to Atlanta October 27 were talked over with him recently by Lee Ashcroft, president of the Atlanta Chamber of Commerce, which will act as host to the president during his stay in the Georgia capital.

As the arrangement now stands, the president's special train will reach Atlanta early in the morning for Birmingham, where he is to speak on the previous day. He will leave his car about 9 o'clock and motor to the Druid Hills Country Club, where he will have luncheon as a guest of the Chamber of Commerce after he has played a round of golf. Later he will be taken for an automobile trip about the city and probably about 4:30 o'clock he will deliver an address at the statue of Henry Grady in the downtown section. Dinner will be aboard the train, which will leave for Washington early in the evening.
